

## Summary of technical files regarding the Mastix system

[www.mastix.ch](http://www.mastix.ch)

### Raft foundation/Raft foundation - Raft foundation/Walls

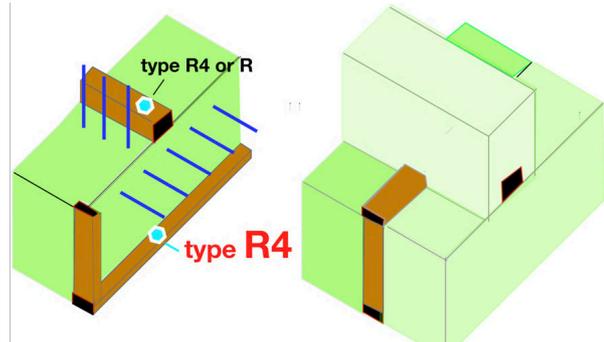

#### Technical file A01

Waterproofing of work joints

With connecting reinforcement

- Raft foundation/Raft foundation  
Bands type R4

- Raft foundation/Walls  
With bands type R4 or R

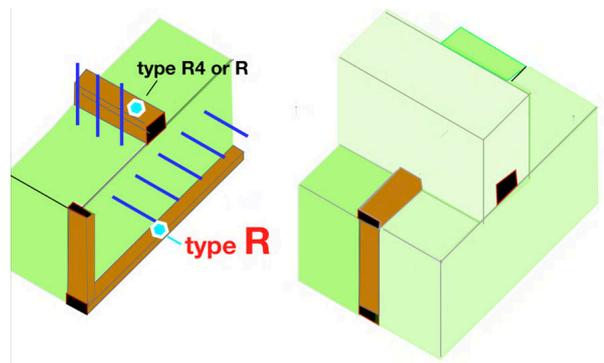

#### Technical file A01

Waterproofing of work joints

With connecting reinforcement

- Raft foundation/Raft foundation  
Bands type R

- Raft foundation/Walls  
With bands type R4 or R

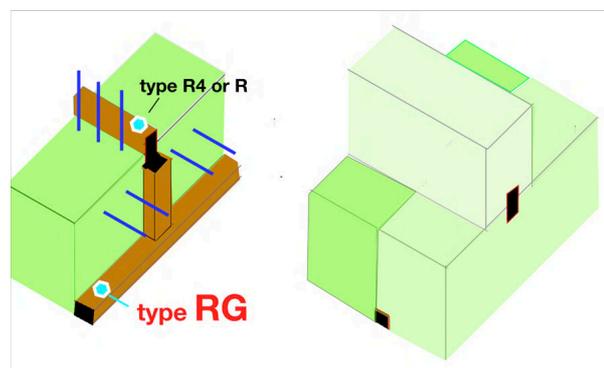

#### Technical file A02

Waterproofing of work joints

With connecting reinforcement

- Raft foundation/Raft foundation  
Bands type RG

- Raft foundation/Walls  
With bands type R4 or R

The Mastix system is simple to work with and naturally compatible  
with concrete and concrete structures

## Summary of technical files regarding the Mastix system

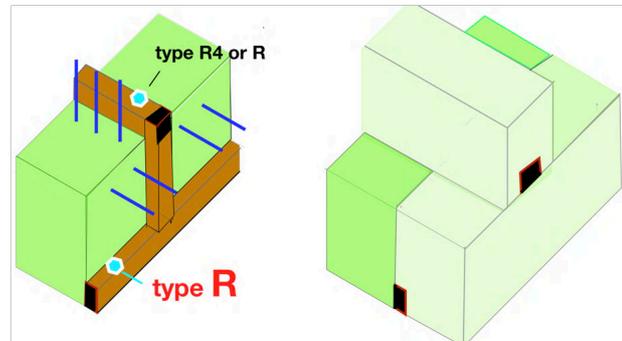

[www.mastix.ch](http://www.mastix.ch)

### Technical file A02

Waterproofing of work joints  
With connecting reinforcement

- Raft foundation/Raft foundation  
Bands type R

- Raft foundation/Walls  
With bands type R4 or R

## Existing old/new raft foundation - Raft foundation/Walls

### Technical file B01

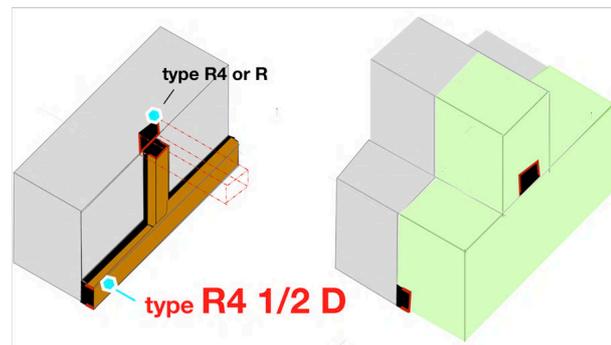

Waterproofing of retreat joints in a raft  
Without connecting reinforcement

- Existing raft foundation/new raft  
foundatio  
Bands type R4 1/2 D

Waterproofing of work joints between raft and  
walls

With connecting reinforcement

- Raft foundation/Walls  
With bands type R4 or R

### Technical file B02

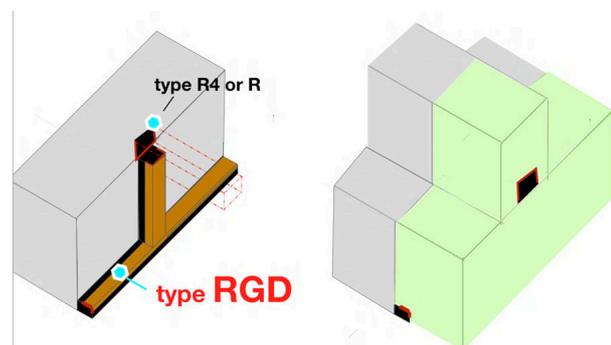

Waterproofing of retreat joints in a raft  
Without connecting reinforcement

- Existing raft foundation/new raft  
foundatio  
Bands type RGD

Waterproofing of work joints between raft and  
walls

With connecting reinforcement

- Raft foundation/Walls  
With bands type R4 or R

The Mastix system is simple to work with and naturally compatible  
with concrete and concrete structures

## Wall/Wall- Raft foundation/Walls

### Technical file A21

Waterproofing of work joints  
With connecting reinforcement

- Wall/Wall  
Bands type R

- Raft foundation/Walls  
With bands type R4 or R

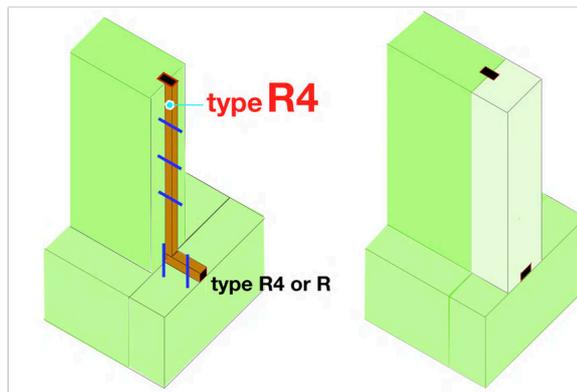

### Technical file A23

Waterproofing of work joints  
With connecting reinforcement

- Wall/Wall  
Bands type R4

- Raft foundation/Walls  
With bands type R4 or R

### Technical file B23

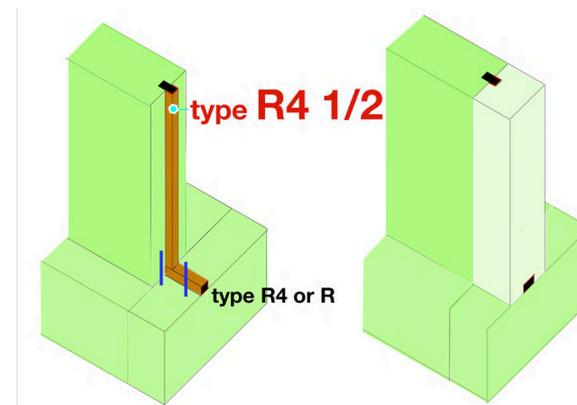

Waterproofing of retreat joints between walls  
Without connecting reinforcement

- Wall/Wall  
Bands type R4 1/2

Waterproofing of work joints between raft and walls

With connecting reinforcement

- Raft foundation/Walls  
With bands type R4 or R

The Mastix system is simple to work with and naturally compatible  
with concrete and concrete structures

## Existing/new wall - Raft foundation/Walls

### Technical file B21

Waterproofing of retreat- and work joints

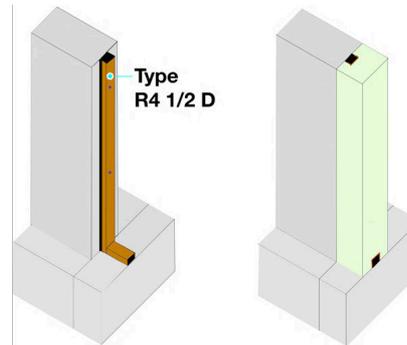

Without connecting reinforcement

- Existing/new wall

Bands type R4 1/2 D

- Raft foundation/Walls

With bands type R4 or R

## Demolished/New wall

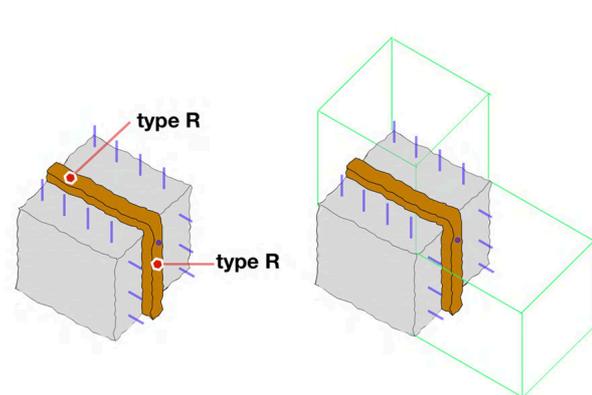

### Technical file A22

Waterproofing of work joints

With connecting reinforcement

- Demolished/New wall

Bands type R

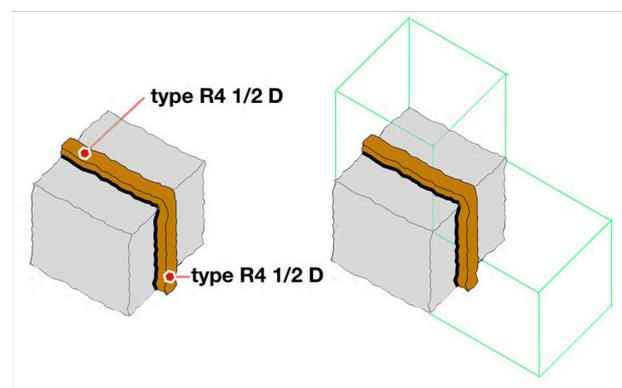

### Technical file B22

Waterproofing of retreat joints

Without connecting reinforcement

- Demolished/New wall

Bands type R4 1/2 D

The Mastix system is simple to work with and naturally compatible  
with concrete and concrete structures
